Re: NOV 93-39-5-3 2 of 3 Part B

Dear Mr. Haddock,

The abatement for NOV 93-39-5-3, 2 of 3, Part B was "to submit the plans (Waste Rock Disposal Sediment Pond) and to finish construction of the ponds by December 1, 1993."

The initial abatement is due November 18, 1993. We have re-calculated the area of the Waste Rock Disposal sediment pond using a 1992 aerial survey. We have found that the existing pond will still function as a total containment pond for the 100 - 6 event. We are redoing the engineering calculations. No new construction will be needed.

We would like to request an extension of abatement time until December 1, 1993. This will allow us to complete engineering calculations and have them certified.

Sincerely,

Keith Zobell
